# INFORMED CONSENT FOR CHIROPRACTIC CARE

**CHIROPRACTIC EXAMINATION AND TREATMENT** On occasion, some patients experience increased discomfort following chiropractic care and examination. Chiropractic physical examination and treatment may involve bending and physically challenging joints and soft tissues (e.g. muscles and ligaments) of the spine and extremities, and it can possibly lead to temporary feelings of soreness or pain. During treatment, the Doctor of Chiropractic may use their hands or mechanical devices to move, adjust, or manipulate joints and mobilize soft tissues. With certain soft tissue therapies, light to moderate bruising may also occur. This is nearly always a temporary issue that occurs while the area under care is undergoing therapeutic change. Patients reserve the right to consent to, or refuse, certain aspects of care once therapeutic options have been presented.

**RISKS OF CHIROPRACTIC CARE AND TREATMENT** I understand and have been informed that there are risks of side effects and complications anytime a healthcare provider is asked to intervene in an encounter with a patient. I have been informed of the following: that although the risk of serious complications from chiropractic treatment are rare and unlikely, events ranging from soreness, sprains and strains, to fracture or dislocation, to injuries of the spinal discs, nerves and cord have occurred. Cerebrovascular accidents, such as a stroke, have also been reported and that these have been estimated to occur in 1 in 2 million to 1 in 3.8 -5.8 million cervical manipulations, about the same probability of stroke occurring from turning your head or having your hair washed in a salon ("beauty parlor stroke"). It cannot be said with any certainty that the specific treatment caused the stroke or aggravated an underlying, pre-existing condition, or the treatment given was totally unrelated to the resulting stroke. You are being informed of this reported association because a stroke may cause serious neurological impairment or even death. The possibility of such injuries occurring in association with cervical adjustment or manipulation is extremely remote.

I understand and I do not expect the Doctor of Chiropractic to be able to anticipate all the potential risks or complications. There may be problems or complications that might arise from treatment and recommendations other than those noted. These other events or complications occur so rarely that it is not possible to anticipate and/or explain them all in advance of treatment.

I wish to rely on the Doctor of Chiropractic to exercise their best professional judgment during the course of the chiropractic examination and treatment, which the doctor feels is in my best interest, based upon the facts as then known at the time.

I will immediately notify a member of the office staff of any unanticipated side effects or adverse reactions associated with treatment. I also understand that if I become concerned about any post-treatment discomfort or, if I should develop any new or unrelated symptoms, I should call the practice for immediate attention. I also understand that if, for some reason, I am unable to reach or contact the practice, that I should telephone my personal primary care doctor or present myself to the nearest hospital emergency room.

**ALTERNATIVE TREATMENTS AVAILABLE** I understand that there are reasonable alternatives to treatment including, but not limited to: rest, home application of therapy, prescription or over-the-counter medication, exercise, non-treatment, treatment and evaluation by another provider, and surgery. Each is associated with their own benefits and risks. I have the right to request a referral to another provider for further evaluation, assessment, and management of my presenting condition(s) at any time.

**CONSENT** By affixing my signature below, I acknowledge that I have read and understood the above consent and have had the opportunity to ask questions about its content and meaning, if so desired, which have been answered to my satisfaction, **PRIOR TO MY SIGNING OF THIS CONSENT FORM.**

**I, the undersigned, hereby request, consent to, and authorize Mt. Lookout Chiropractic & Sports Injury Center to conduct physical examinations, perform testing procedures as are required, and administer treatment as deemed necessary or advisable for my presenting complaint(s) that are within the scope of the practice of chiropractic care. **I intend this consent form to cover the entire course of treatment for my present condition and for any future conditions for which I seek examination and treatment for myself or my dependent.**

# FINANCIAL POLICY FOR WORKERS' COMPENSATION

If you have been hurt while working, this will be classified as Workers' Compensation. We will bill the responsible party for your examination and treatment of the approved/allowed condition/area only. We will accept the payment for all covered services as payment in full. The patient will be responsible for non-covered services and expected to pay at the time service is rendered.

Prior authorization may be needed for certain services or diagnostic testing.

If your claim is disputed, you may be asked to cover the expenses during treatment by some other payment method. If the dispute is found in your favor, Workers' Compensation will reimburse you. You should acquire a Workers' Compensation attorney to handle your dispute.

Until your claim is approved it is required that you bring in a major medical/health insurance card for us to photocopy. This way we can file your health insurance if your claim fails to compensate.

You should bring any correspondence regarding your claim (ie: claim number, allowed conditions, notification of independent exams) to our insurance staff.

There are no charges for reports filed to the Bureau of Workers' Compensation. However, charges are made for reports to attorneys and/or credit disability carriers. Disability forms (C84, credit disability, etc.) are to be left for completion and require 5 working days for completion.

Our goal is to treat you and restore you to pre-accident status if possible. Please understand Workers' Compensation does not pay for treatment unrelated to your injury. They also may not pay for care of conditions that have reached maximum medical improvement.

I have read the Financial Policy and agree to the conditions of the arrangements as outlined above. Furthermore, should I for any reason, become inactive by discontinuing care, I understand that my entire balance of professional services rendered to date will be due within 30 days from my last visit. I will allow this office to converse with my employer regarding this condition. I understand that all records, including x-rays, are part of the permanent records of this office. Copies are available at a nominal charge.
