INFORMED CONSENT FOR CHIROPRACTIC CARE

CHIROPRACTIC EXAMINATION AND TREATMENT On occasion, some patients experience increased discomfort following chiropractic care and examination. Chiropractic physical examination and treatment may involve bending and physically challenging joints and soft tissues (e.g. muscles and ligaments) of the spine and extremities, and it can possibly lead to temporary feelings of soreness or pain. During treatment, the Doctor of Chiropractic may use their hands or mechanical devices to move, adjust, or manipulate joints and mobilize soft tissues. With certain soft tissue therapies, light to moderate bruising may also occur. This is nearly always a temporary issue that occurs while the area under care is undergoing therapeutic change. Patients reserve the right to consent to, or refuse, certain aspects of care once therapeutic options have been presented.

RISKS OF CHIROPRACTIC CARE AND TREATMENT I understand and have been informed that there are risks of side effects and complications anytime a healthcare provider is asked to intervene in an encounter with a patient. I have been informed of the following: that although the risk of serious complications from chiropractic treatment are rare and unlikely, events ranging from soreness, sprains and strains, to fracture or dislocation, to injuries of the spinal discs, nerves and cord have occurred. Cerebrovascular accidents, such as a stroke, have also been reported and that these have been estimated to occur in 1 in 2 million to 1 in 3.8 -5.8 million cervical manipulations, about the same probability of stroke occurring from turning your head or having your hair washed in a salon ("beauty parlor stroke,). It cannot be said with any certainty that the specific treatment caused the stroke or aggravated an underlying, pre-existing condition, or the treatment given was totally unrelated to the resulting stroke. You are being informed of this reported association because a stroke may cause serious neurological impairment or even death. The possibility of such injuries occurring in association with cervical adjustment or manipulation is extremely remote.

I understand and I do not expect the Doctor of Chiropractic to be able to anticipate all the potential risks or complications. There may be problems or complications that might arise from treatment and recommendations other than those noted. These other events or complications occur so rarely that it is not possible to anticipate and/or explain them all in advance of treatment.

I wish to rely on the Doctor of Chiropractic to exercise their best professional judgment during the course of the chiropractic examination and treatment, which the doctor feels is in my best interest, based upon the facts as then known at the time.

I will immediately notify a member of the office staff of any unanticipated side effects or adverse reactions associated with treatment. I also understand that if I become concerned about any post-treatment discomfort or, if I should develop any new or unrelated symptoms, I should call the practice for immediate attention. I also understand that if, for some reason, I am unable to reach or contact the practice, that I should telephone my personal primary care doctor or present myself to the nearest hospital emergency room.

ALTERNATIVE TREATMENTS AVAILABLE I understand that there are reasonable alternatives to treatment including, but not limited to: rest, home application of therapy, prescription or over-the-counter medication, exercise, non-treatment, treatment and evaluation by another provider, and surgery. Each is associated with their own benefits and risks. I have the right to request a referral to another provider for further evaluation, assessment, and management of my presenting condition(s) at any time.

CONSENT By affixing my signature below, I acknowledge that I have read and understood the above consent and have had the opportunity to ask questions about its content and meaning, if so desired, which have been answered to my satisfaction, **PRIOR TO MY SIGNING OF THIS CONSENT FORM.**

I, the undersigned, hereby request, consent to, and authorize Mt. EXTENDED FINANCIAL POLICY

Please read our financial policy in its entirety. If you have any questions or concerns please feel free to ask any questions that you may have. Your clear understanding of our Patient Financial Policy is important to our professional relationship.

INSURANCE It is the patient's responsibility to provide our office with current insurance information. We will ask for your insurance card at your first visit and will copy for our records. We will request a copy at each annual office visit, or if you have not been seen in the past twelve months. If your insurance information changes at any time during your treatment, it is ultimately your responsibility to provide us with the new information as soon as it becomes active. If current information is not obtained at the time of service it will be the patient's responsibility to pay the entire balance until current information is provided to our office. It is the patient's responsibility to know their benefits and coverage.

Your insurance policy is a contract between you and the insurance company. As a courtesy and pursuant to contractual obligations we will file all your claims for you. However, we will not become involved in any disputes between you and your insurance carrier. This includes, but is not limited to, deductibles, copays, and non-covered charges.

REFERRALS Some insurance policies require you as the policy holder to obtain a referral from your primary care physician, or student health center prior to receiving treatment at our office. It is your responsibility to obtain this documentation and present it to our office at the time of service. If this information is not obtained, you will be responsible for the entire balance of your account.

COPAYS Copays are due at the time of service. Copays are usually collected PRIOR to you seeing the doctor but may sometimes be collected after you have received treatment.

MEDICARE If you are a Chiropractic Medicare patient you will be responsible to pay for your exam on your first visit, at the time of service. While Medicare requires an exam they do not cover it. Exams are typically \$110-\$125. Xrays are also not covered by Medicare and the cost would be your responsibility and would also be due at the time of service.

CASH PLANS Cash plans are available for patients who do not have insurance or wish to not bill to insurance. These plans differ and can be discussed with your doctor. Cash plan payments are due at the time of service.

SUPPLEMENTS/MERCHANDISE Payments for supplements and merchandise purchased in our office are due at the point of sale. We cannot bill insurance, worker's compensation, or personal injury accounts for these items. These charges are the patient's

responsibility and are not covered by any insurance carrier. These items include but are not limited to, supplements, pillows, back packs, braces, heel lifts, orthotics, and cold packs.

UNPAID/OUTSTANDING BALANCES We ask that full payment be made at the time of service unless prior arrangements have been made, either with your doctor or our billing office. If you have a deductible plan, once insurance has paid you will be mailed a statement: Prompt and timely payment is appreciated. You may call our billing office to set up a payment plan if necessary. ***If your account should become delinquent, the responsible party is aware that the account information will be turned over to collections and he/she will be responsible for the agency's collection fees as well as the outstanding balance.***

RETURNED CHECKS The charge for a returned check is \$30. This can be paid by cash, money order, or charge. This will be applied to your account in addition to the original amount owed.

After the request for a refund has been made, please allow time for review of your entire account and processing through our accounting department. Once approved please allow 30-45 days for your refund check to arrive.
